3. The following is an examiner's statement of **reasons for allowance**:

With respect to claim 1, and as set forth in p. 11-18 of Applicant's arguments dated 10/26/05, the prior art fails to teach or suggest a method of making a panel by providing a solder glass band around a margin of one surface of each glass sheet, **heating the glass sheets to a first temperature to temper each sheet and to form an hermetic bond between the solder glass band and the associated surface of each glass sheet**, positioning the glass sheets in confronting relationship and **heating the sheets to a second temperature, which is lower than the first temperature, to form an hermetic seal between the two solder glass bands while** substantially avoiding annealing of either glass sheet.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
